AGNES SCOTT COLLEGE

The purpose which has prevailed at Agnes Scott since its foundation has been to offer the very best educational advantages under positive Christian influences—the training and furnishing of the mind in a modern, well-equipped college, and at the same time the formation and development of Christian character and ideals. Along with these ends, it is constantly sought to cultivate true womanliness, a womanliness which combines strength with gentleness and refinement. It is thus the aim of the College to send out educated Christian women to be a power in blessing the world and glorifying God.

The College was founded by Presbyterians, and hence its moral standards and religious life conform as nearly as possible to those which obtain in that church. Special care, however, is taken not to interfere in any way with the religious views or church preferences of students.

The college offers only the B.A. degree. There are, however, optional courses leading to this degree, thus giving the opportunity for each student to elect a course most in accord with her special talent and plans.

ADMISSION OF STUDENTS

There are four main considerations for the acceptance of a student: (1) the excellence of her preparation, as evidenced by a certificate or an examination; (2) her character and ability, shown by testimonials, and a psychological test; (3) a satisfactory health report; (4) the date of her application for admission.

Since full data cannot be secured until the closing of the various preparatory schools, as a rule it is not possible to give definite acceptance of an applicant before June 15th. Selections are usually made between this date and July 1st. The names of applicants who cannot be accepted at the first period of choosing are placed on a waiting list for spaces that may develop later. In addition to the general list, the College maintains an "honor group" for exceptionally well prepared applicants, and these may often secure places even to the opening of the college year.

Only graduates of four-year preparatory schools of recognized standing, or applicants who can offer equivalent preparation, representing four years of work in a recognized institution, will be received into the College. For the admission of special students, see page 23.

Applicants for admission must not be under sixteen years of age. Candidates for advanced standing should be of an age corresponding to this rule.

A deposit of \$25.00 is required of all students before room space is reserved. This should be sent to the Registrar, either in New York exchange or Postal Money Order, made payable to Agnes Scott College. If by local check, the usual clearing house collection charges should be added.

The above deposit is credited on the September payment. If for any reason the student finds it impracticable to attend Agnes Scott and asks for the return of her fee, the request will be granted provided it *reaches* the College on or before June 30th, prior to the opening of College. After that date it will not be returned unless the preparation of the applicant is insufficient or unless the College finds it impossible to take her on account of lack of space.

For entrance requirements, and for description of entrance subjects, see below.

For admission by certificate, see page 25.

For entrance examinations, see page 25.

ENTRANCE SUBJECTS

The following subjects are accepted for entrance:

English	4 units
Mathematics	3 or 4 units
Latin	3 or 4 units
History	1, 2, 3, or 4 units
French	2, 3 or 4 units
German	2, 3 or 4 units
Greek	2, 3 or 4 units
Spanish	2, 3 or 4 units
Physics	1 unit
Chemistry	1 unit
Biology:	
Botany	½ or 1 unit
Zoology	½ or 1 unit
Geography	1 unit
General Science	1 unit
‡Bible	1 unit
†Music	1 unit
Civics	½ or 1 unit

‡See page 43. †See page 42.

A unit represents a year's study of one of the above subjects in a standard secondary school, constituting approximately a quarter of a full year's work.

It is understood that in choosing the elective units no required unit may be counted also as an elective unit, and also that elective units may be counted only once.

The entrance requirement work in French, German and Spanish may be done in College after entrance, but will not count toward the degree.

Not more than four units may be offered in History and Civics combined.

The maximum number of units allowed in Science is four.

STANDING TO WHICH STUDENTS ARE ADMITTED

The College admits students: (I) as unconditioned Freshmen; (II) as conditioned Freshmen; (III) as irregular students; (IV) to advanced standing; (V) as special students.

While these five classifications are recognized, the College gives preference to those in the first group; and under the competitive plan of admission very few in other groups are taken.

I. *As Unconditioned Freshmen*, upon the presentation of sixteen complete units, including the prescribed units detailed below:

<i>Prescribed</i>		<i>Elective</i>

*Algebra is accepted with the valuation of two units, *provided two years* shall have been given to the work in preparatory school.

‡See page 43. †See page 42.

II. *As Conditioned Freshmen*, upon the presentation of sixteen complete units chosen from the list of accepted subjects on page 18; but lacking a maximum of two units of those *prescribed for unconditioned admission*. These conditions in prescribed subjects must be removed before the beginning of the second year.

The following restrictions upon such conditions must be observed:

1. The deficiency in no single subject (except in the case of a modern language or Greek) shall amount to more than a year of preparatory work.

2. Completed work to the following extent must be offered:

(a) English to the extent of four units.

(b) Mathematics to the extent of two units.

(c) Latin to the extent of two units, if the minor requirement be chosen, or,

(d) Latin to the extent of three units, if the major requirement be chosen.

III. *As Irregular Students*, without class standing, upon the presentation of sixteen complete units chosen from the list of accepted subjects detailed on page 18, including four units in English and two in Mathematics.

These students are required to take a minimum of fourteen hours of recitation a week, which may include Music and Art, but at least nine hours must be in academic work.

Should they later desire to arrange their courses for the degree, credit will be given them for work already done in the

College, but they must meet all of the entrance requirements of degree students.

IV. *To Advanced Standing.* A candidate may be admitted to any of the higher classes on the following conditions:

1. She must present:
 - a. An honorable dismissal from the college she has attended.
 - b. An official statement of entrance requirements and how absolved.
 - c. An official statement of studies pursued for credit.
 - d. A catalogue of the institution with her completed courses marked.

NOTE.—If the above certificates are not entirely satisfactory a detailed statement of individual professors will be required.

2. She must satisfy the entrance requirements of this College. If necessary, credits presented for advanced standing may be used to satisfy any deficit in the entrance requirements.

3. If she comes from a college which has been recognized by the Agnes Scott faculty as having equivalent requirements and standards for the B.A. degree, she will be given either continuation work or tentative credit course by course, in so far as the courses are, in the opinion of the heads of the departments concerned, equivalent to courses offered in this College. An examination on the work offered for advanced standing may be required at any time, if the student's work should prove unsatisfactory.

4. If she comes from an institution not fully recognized, she will be required to take examinations for any advanced credit she may desire.

5. No credit will be allowed for courses taken by correspondence except by advanced standing examinations given by this college.

6. The B.A. degree will not be conferred on any student who has not completed at least thirty semester hours of work in residence during the session immediately preceding graduation.

7. Applicants for advanced standing must have received a merit grade on at least one-half of the hours presented for advanced credit.

NOTE.—See pages 45-46 for additional details as to advanced credits.

V. *As Special Students.* In accordance with the regulation prescribed by "The Association of Colleges and Secondary Schools of the Southern States," candidates of maturity, who are unable, for any cause, to present the entrance requirements, may be admitted to such courses as they may be prepared to take, provided these courses are not among those covered by the entrance requirements. This provision is intended to afford an opportunity to two classes of women: (1) Those who have completed their entrance requirements so long since as to render them void; (2) Those whose preparatory work has been interrupted in the past and never resumed. The following limitations should be observed:

1. Applicants must not be less than twenty years of age at the time of application.

2. They may not matriculate in any courses covered by the entrance requirements without first satisfying the requirements in those subjects.

3. They have no class standing. If they desire later to transfer to the regular degree course, they must first satisfy the full entrance requirements.

4. If they have completed the entrance requirements in accredited schools not more than two years previously, they will be expected to submit the certificates of such schools, and enter as "regular," or as "irregular" students, and not as "special" students.

MANNER OF ADMISSION

Admission by Certificate. In lieu of entrance examinations, the College will accept certificates from any high school, fitting school, or seminary on the accredited list of the Association of Colleges and Secondary Schools of the Southern States, or from any school accredited by other college associations of equal standing, in so far as such certificates show the entrance requirements to have been duly satisfied not more than two years prior to the candidate's application for admission. Certificates should be on forms provided by the College. These forms will be furnished on application. The certificate privilege is granted to schools only and not to private instructors.

Beginning with September, 1924, students applying for admission on the certificate plan have been given a psychological test as an additional aid toward judging their qualifications. The tests may be given at any place where suitable arrangements for holding them can be made.

Admission by Examination. Candidates who are unable to present satisfactory certificates may be admitted by examination, provided they have taken the required units under capable instruction.

Examinations for admission are usually given in the spring. They may be taken at the College or by special arrangement at local schools. Applications for the giving of examinations away from the College should be filed with the Registrar by May 1st of each year.

Spaces in dormitories will not be held for students whose entrance depends on fall examinations.

Any candidate applying for entrance examinations at dates

other than those appointed may be allowed to take them on the approval of the Registrar, but a fee of \$2.00 will be charged for each examination.

For the year 1929, the dates for the spring examinations are May 20-25. The fall examinations are held only at the College, and the schedule is as follows:

DESCRIPTION OF ENTRANCE SUBJECTS

ENGLISH

ENGLISH, *four units*. The College entrance requirements of the New England, Middle and Southern Associations of Colleges and Secondary Schools constitute the entrance work in English.

The requirement has two branches, Rhetoric and English Literature. The study of English should be continuous throughout the four years of the high-school course.

I. RHETORIC AND COMPOSITION, *two units*. It is hoped that at least one-half of the high-school course in English will be devoted to the work in composition and rhetoric, either as a separate study or in connection with the work in literature, as it is a prime essential to success in any branch of college work that the student be able to express herself, both orally and in writing, with correctness and clearness.

To meet this requirement in composition:

1. *There should be practice in writing, the equivalent of at least one theme a week during the four years of her preparatory course.* She must be able to spell, capitalize, and punctuate correctly; no candidate will be accepted whose work is notably deficient in this respect. She must also have a practical knowledge of English grammar.

2. There should be a systematic study of rhetoric. Particular attention should be given to the structure of the sentence, paragraph, and whole composition.

II. LITERATURE, *two units*.I. *Reading* (1929-1931).

From each group two selections are to be made, except that for any book in Group V a book from any other may be substituted.

GROUP I: Dickens, *A Tale of Two Cities*; George Eliot, *Silas Marner*; Scott, *Quentin Durward*; Stevenson, *Treasure Island* or *Kidnapped*; Hawthorne, *The House of the Seven Gables*.

GROUP II: Shakespeare, *Merchant of Venice*, *Julius Cæsar*, *King Henry V*, *As You Like It*, *The Tempest*.

GROUP III: Scott, *The Lady of the Lake*; Coleridge, *The Ancient Mariner*, and Arnold, *Sohrab and Rustum*; a collection of representative verse, narrative and lyric; Tennyson, *Idylls of the King* (any four); the *Aeneid* or the *Odyssey* or the *Iliad* in a translation of recognized excellence, with the omission, if desired, of Books I-V, XV, and XVI of the *Odyssey*, and Books XI, XIII-XV, and XXI of the *Iliad*; Longfellow, *Tales of a Wayside Inn*.

GROUP IV: *The Old Testament*, comprising the chief narrative episodes in *Genesis*, *Exodus*, *Joshua*, *Judges*, *Samuel*, *Kings*, and *Daniel*, together with the books of *Ruth* and *Esther*; Irving, *The Sketch Book* (selections covering about 175 pages); Addison and Steele, *The Sir Roger de Coverley Papers*; Macaulay, *Lord Clive* or *History of England*, Chapter III; Franklin, *Autobiography*; Emerson, *Representative Men*.

GROUP V: A modern novel; a modern biography or autobiography; a collection of short stories (about 250 pages); a

collection of contemporary verse (about 150 pages); a collection of scientific writings (about 150 pages); a collection of prose writings on matters of current interest (about 150 pages); a selection of modern plays (about 250 pages). All selections from this group should be works of recognized excellence.

2. STUDY: One selection is to be made from each of Groups I and II and two from Group III:

GROUP I: Shakespeare, *Macbeth*, *Hamlet*.

GROUP II: Milton, *L'Allegro*, *Il Penseroso*, and either *Comus* or *Lycidas*; Browning, *Cavalier Tunes*, *The Lost Leader*, *How They Brought the Good News from Ghent to Aix*, *Home Thoughts from Abroad*, *Home Thoughts from the Sea*, *Incident of the French Camp*, *Hervé Riel*, *Pheidippides*, *My Last Duchess*, *Up at a Villa—Down in the City*, *The Italian in England*, *The Patriot*, *The Pied Piper*, "De Gustibus—," *Instans Tyrannus*, *One Word More*.

GROUP III: Burke, *Speech on Conciliation with America*; Macaulay, *Life of Johnson*; Carlyle, *Essay on Burns*, with a brief selection from Burns' *Poems*; Lowell, *On a Certain Condescension in Foreigners*, and *Democracy*; Lincoln, *Speech at Cooper Union*, his farewell to the citizens of Springfield, his brief addresses at Indianapolis, Albany and Trenton, the speeches in Independence Hall, the two Inaugurals, the Gettysburg Speech, and his last public address, together with a brief memoir or estimate of Lincoln.

LATIN

All students entering the degree course must present the minor requirement in Latin and are advised to offer the major requirement.

The requirements in Latin (three or four units) are in accordance with a report presented to the College Entrance Examination Board in November, 1925, by a commission appointed to frame recommendations on the basis of the Classical Investigation. The College Entrance Board has adopted these recommendations and bases its examinations on them. The examinations include English passages for translation into Latin and passages of Latin for translation and "comprehension." In connection with the passages of Latin, questions are asked on forms, syntax, and the idioms of the language, as well as such questions on the subject matter, historical and literary, as may fairly be asked.

MINOR REQUIREMENT, three units.—If prose writers be read the third year, the Minor Requirement admits to Latin 11-12 and 13-14; if poets be read, admits to Latin 15-16 and 13-14.

Candidates offering the Minor Requirement of Latin should follow in the first and second years the same course of study as those offering four units. In the third year either prose writers or poets may be read, but it is strongly recommended that prose rather than verse be the subject of study. Not less than one semester should be devoted to the reading of Cicero if prose is chosen; not less than one semester should be devoted to the reading of Virgil if poetry is chosen. See detailed statement under Major Requirement.

MAJOR REQUIREMENT, four units.—Admits to Latin 103-4, and to Latin 101 or 105.

I. *Reading*.—There are no prescribed readings in Latin, but the following recommendations are made:

(1) In the second year the early reading should be easy Latin which may be "made" or adapted Latin; not less than one-half of this year should be devoted to the reading of selections from Cæsar. The reading for the year may also include easy selections from such authors as Aulus Gellius, Eutropius, Nepos, Phaedrus, Quintus Curtius Rufus, and Valerius Maximus, or books of selections containing some of these together with authors of prose works.

(2) In the third year, if the reading be in prose, not less than one-half should be devoted to the reading of selections from Cicero; the reading for the year may also include selections from such authors as Pliny, Sallust, and Livy, or books of selections containing these and other authors of prose works.

(3) In the fourth year, if the reading be in poetry, not less than one-half should be devoted to the reading of selections from Virgil; and the reading for the year may also include selections from such works as the *Metamorphoses*, *Tristia*, *Heroides*, and *Fasti* of Ovid, or books of selections containing poems or extracts from Ovid or from other poets.

II. PROSE COMPOSITION.—Work in prose composition should be carried on through at least three years of the preparatory course; if possible, through four; and should be such as to ensure thorough knowledge of all regular inflections, all common irregular forms, and the ordinary syntax and vocabulary of the prose authors read in school, with ability to use this knowledge in writing simple Latin prose.

Suggestions Concerning Preparation

Exercises in translation at sight should begin with the first lessons in which Latin sentences of any length occur, and

should continue throughout the High School course with sufficient frequency to insure correct methods of work on the part of the student. From the outset particular attention should be given to developing the ability to take in the meaning of each word—and so, gradually, of the whole sentence—just as it stands; the sentence should be read and understood in the order of the original, with full appreciation of the force of each word as it comes, so far as this can be known or inferred from that which has preceded, and from the form and the position of the word itself. The habit of reading in this way should be encouraged and cultivated as the best preparation for all the translating that the student has to do. No translation, however, should be a mechanical metaphor. Nor should it be a mere loose paraphrase. The full meaning of the passage to be translated, gathered in the way described above, should finally be expressed in clear and natural English.

A written examination cannot test the ear or tongue, but proper instruction in any language will necessarily include the training of both. The school work in Latin, therefore, should include much reading aloud, writing from dictation, and translation from the teacher's reading. Learning suitable passages by heart is also very useful, and should be more practiced.

The work in composition should give the student a better understanding of the Latin she is reading at the time, if it is prose, and greater facility in reading. It is desirable, however, that there should be systematic and regular work in composition during the time in which poetry is read as well; for this work the prose authors already studied should be used as models.

The College Entrance Board has prepared a pamphlet entitled *A Latin Word List* which indicates the vocabulary that students are expected to know at the end of two years, three years, and four years of study. This pamphlet may be obtained for twenty-five cents of the College Entrance Board, 431 West 117th Street, New York City, N. Y.

GREEK

Students may offer for entrance in Greek either the minor or the major requirement. The minor requirement is counted as two units, and presupposes a study of Greek during two full years, five recitations a week. The major requirement is counted as three units, and presupposes three years of preparation, five recitations a week. The ground which must be covered is as follows:

1. For the minor requirement—

a. Grammar: Inflection, etymology, and derivation of words, syntax of nouns and verbs, and structure of the sentence as treated in Allen's *First Year of Greek*, or its equivalent, must be *thoroughly mastered*. Constant attention should be paid to translation from English into Greek.

b. Xenophon: *Anabasis*, three books. Special attention should be paid to Greek syntax and to the use of good English in translating. Thorough drill on translation from English into Greek.

2. For the major requirement—

The student must have completed the minor requirement as outlined above and in addition have read three books of Homer's *Iliad*, or an equivalent amount in Homer's *Odyssey*.

Constant practice should be given in prose composition, in translation at sight, and in Homeric forms and syntax.

FRENCH

MINOR REQUIREMENT (admitting to French 101-102), two units. The preparation for this requirement should comprise:

1. A thorough knowledge of the rudiments of grammar, including the essentials of syntax with mastery of the regular verbs and of at least twenty-five irregular models.
2. *Abundant exercises in prose composition.*
3. Careful drill in pronunciation and practice in conversation.

It is urged that students be taught the use of the alphabet of the Association Phonétique.

It is *essential* that the candidate acquire the ability to follow a recitation conducted in French and to answer in that language questions asked by the instructor. She should also be able to write in French a paragraph dictated from any book of moderate difficulty.

4. The reading of at least three hundred duodecimo pages of simple French from four authors.

The following grammars are suggested to candidates: The New Chardenal, Complete Course, published by Allyn and Bacon or Chankin & Rosenthal Grammaire de Conversation et de Lecture, cours complet—Holt, through Lesson 53.

The texts suggested for reading are:

Fontaine: Douze Contes Nouveaux; *Scribe*: La Bataille de Dames; *Daudet*: Trois Contes Choisis; *Malot*: Sans Famille;

de la Brete: Mon Oncle et mon Curé; *Labiche-Martin*: Le Voyage de M. Perrichon; *Lavisse*: Histoire de France.

NOTE.—If the time given to preparation is less than two years, with four or five recitations a week, an examination will be required even from students who present certificates from accredited schools.

MAJOR REQUIREMENT: (1) three units (admitting to French 103-104) or (2) four units (admitting to French 257-258).

To meet Major Requirement (1) the candidate must present the whole minor requirement and, in addition, the following:

1. A thorough knowledge of French grammar and syntax.
2. Ability to translate a connected passage of English of moderate difficulty into French at sight and to write in French a resumé of any of the books read or a composition suggested by any of the texts, and to answer in French questions on the history of France Under Louis XIV.
3. Ability to read any ordinary French.
4. Ability to understand a lecture given in French and to speak correctly in French on topics bearing on everyday life, as well as the ability to discuss the texts read.
5. The reading of at least seven hundred duodecimo pages from as many as five authors.

The texts suggested are those found under French 101-102 in the section of this Bulletin entitled "Description of Courses." See page 120. It is recommended that texts be chosen from contemporary rather than classical authors. It is further recommended that some history of the Seventeenth Century be used

as one text in order to give the student a background for her college work in French literature. Malet's *Histoire de France, Deuxième Année*, Hachette Frères, pp. 36-84 and 120-156 is suggested.

To meet Major Requirement (2) the student must have had work equivalent to course 103-104.

SPANISH

MINOR REQUIREMENT (admitting to Spanish 101-102), two units. Hill and Ford's *Spanish Grammar in full*, or the equivalent in grammar and prose composition, and the reading of at least three hundred duodecimo pages. The work should comprise:

1. A thorough knowledge of the rudiments of grammar, inflection of articles, nouns, adjectives, and pronouns, and including the conjugation of regular and irregular verbs, the elementary rules of syntax.

2. Exercise in prose composition.

3. Careful drill in pronunciation and practice in conversation.

4. Practice in translating Spanish into English and English into Spanish.

5. Writing Spanish from dictation.

MAJOR REQUIREMENT: (1) Three units (admitting to Spanish 151-152) or (2) four units (admitting to Spanish 201-202).

To meet Major Requirement (1) the candidate must present the whole minor requirement and, in addition, the following:

1. A thorough knowledge of Spanish grammar and syntax. Ability to write résumés or compositions based on texts.
2. Continued translation of Spanish into English and English into Spanish.
3. Ability to read any ordinary Spanish.
4. Ability to understand a lecture given in Spanish and to speak correctly in Spanish.
5. The reading of about seven hundred duodecimo pages from various authors.

To meet Major Requirement (2) the student must have had work equivalent to course 151-152.

GERMAN

MINOR REQUIREMENT (admitting to German 101-102), two units.—Thomas's Practical German Grammar, Part I in full, or the equivalent in grammar and prose composition; at least ten stories of Guerber's Märchen and Erzählungen, Part I, used for memory work in the abundant idioms which this text affords, and as a basis for conversation and *oral* narration. The reading *in addition* of at least 150 pages of prose from *carefully graduated texts*. This requirement includes careful *drill in pronunciation and in reading German ALOUD*; the inflection of articles, nouns, adjectives, pronouns, weak verbs and most of the strong verbs; the common uses of the subjunctive and of modal auxiliaries, *both in translation and in prose*; a considerable drill also in the less common modal construction and idioms; familiarity with the functions of *all* the common prepositions, with the principles of syntax and word-order; the

memorizing of idioms of daily life and of simple German poems; conversation; *oral* narrative; *reading at sight*.

NOTE.—It is expected that this work will include five recitations a week for a period of two years. If the work is done in less time than this, admission, even from accredited schools, will be by examination.

MAJOR REQUIREMENT (admitting to German 251-252), three units.—The full work as given under the minor requirement. *In addition*: (1) Thomas's Practical German Grammar, Part II, in full; last half of Hervey's Supplementary Exercises to Thomas's Grammar; or the equivalent of these two books in grammar, prose composition, and syntax drill; (2) practice in translating connected narrative into German, also in free reproduction orally and in writing, based on texts read and on Thomas and Hervey's German Reader and Theme-Book, or books similar in grade and in kind; (3) *drill in sight reading and in conversation*; (4) the reading of at least 500 pages of carefully graduated texts, one-half of which should be chosen from the works of Lessing, Goethe, and Schiller; (5) memory work emphasized, including poems from Heine, Goethe, and Schiller, and the more difficult conversation idioms.

MATHEMATICS

MINOR REQUIREMENT. Three units.

At least two years with daily recitation should be given to Algebra and one year to Plane Geometry.

Algebra, two units.—The requirement includes the four fundamental operations for rational algebraic expressions; factoring; fractions; ratio and proportion; linear equations,

containing one or more unknowns, with either numerical or literal coefficients; exponents, including fractional and negative; quadratic equations, including the theory; systems involving quadratic and higher equations; binomial theorem for positive integral exponents; arithmetical and geometrical progressions; and variations. The use of graphical methods and illustrations, particularly in connection with the solution of equations, is required.

Plane Geometry, one unit.—The usual theorems and constructions of good text-books including the general properties of plane rectilinear figures; the circle and the measurement of angles; similar polygons; areas; regular polygons and the measurement of circle; the solution of numerous original exercises, including loci problems; applications to the mensuration of lines and plane surfaces.

NOTE.—It is recommended that a review of both algebra and plane geometry be taken during the year before entrance to college.

The mathematics entrance requirements agree in general with those of the College Entrance Examination Board. More complete definitions of the requirements, with notes for the guidance of teachers, will be found in Document No. 117 published by the College Entrance Examination Board, 431 West 117th Street, New York City.

MAJOR REQUIREMENT. Four units.—To meet this requirement the candidate must present the work as given under the minor requirement and in addition the following:

Solid Geometry, one-half unit.—The usual theorems and constructions of good text-books, including the properties and

measurement of prisms, pyramids, cylinders, cones and the sphere, and the solutions of numerous original exercises, are required.

Plane Trigonometry, one-half unit.—The requirement includes the definitions and relations of the trigonometric functions as ratios; proof of formulae and identities; practical use of logarithms; and the solution of triangles.

HISTORY

For entrance in History each of the following four subjects is counted as *one unit*. Each unit represents the amount of work which can be covered in five recitations a week during one year, or in three recitations a week during two years.

a. Greek History to the Death of Alexander, and Roman History to 800 A. D., or Ancient and Mediæval History.

It is strongly urged that every student offer Greek and Roman History for entrance.

b. Mediæval and Modern European History from 800 A. D. to the present time, or Modern European History.

c. English History.

d. American History.

Of these four units, the student *must* offer one unit, and *may* offer three additional units.

The examinations will be based upon modern high school text-books.

It is strongly recommended that the preparation in History include, besides the study of a text-book, parallel reading, use

of a notebook, taking of notes, and practice in the filling in of outline maps.

CIVICS

One unit of credit may be received for a course in Civics taken throughout the year, or one-half unit may be received for a course taken in combination with American History. One-half unit of credit may be allowed for a semester course in Civics and one-half unit for a course in Economics, provided these are taken in the last year of the high school. No credit will be allowed for Economics alone. The total entrance credit of History and Civics may not exceed three units.

SCIENCE

The student may offer one, two, three or four units from those given below. Each should represent the work of one year, and should include a large amount of individual laboratory work. The laboratory work should be directed by a competent instructor and records made in a notebook, while in the field or laboratory. A list of advised experiments will be sent with blank for admission. Experiments must be checked and certified to by the instructor. In doubtful cases the notebook will be called for.

1. PHYSICS, one unit. The amount of work is represented by the requirements outlined by the College Entrance Examination Board, or such texts as Millikan & Gale. The laboratory work must include at least thirty exercises from the different phases of the subject and comprising a certain number of quantitative experiments. The division of time should be three recitations a week of one period each, and two double periods for laboratory.

2. CHEMISTRY, one unit. The preparation in Chemistry should consist of recitations, instruction by lecture table demonstrations and laboratory work equivalent to five hours each week throughout the year. It is suggested that two double periods a week be given to individual laboratory work.

3. BIOLOGY, BOTANY, ZOOLOGY, one unit. A year in any of these subjects will be accepted for entrance, provided the work in the courses meets the requirements of the College Entrance Examination Board. Preparation in these subjects should require three recitations per week, and two laboratory exercises of two periods each.

4. GEOGRAPHY, one unit. The work in this subject should meet the requirements outlined by the College Entrance Examination Board in the course in Physical Geography. A strong course in Commercial Geography may be substituted for this, but both courses may not be offered.

5. GENERAL SCIENCE, one unit. Credit is given for one year's high school work in General Science when such work comprises both text-book and laboratory work. A laboratory notebook with original observations and conclusions should be presented in order to receive credit.

MUSIC

One unit in the elective group may be offered in Music by *examination only*. This examination covers theory and instrumental proficiency. The preparation for it may not be done in College for College admission. For details of the requirements, see page 103. The examination may be taken only at the College. Students are not advised to try for this unit unless they have had unusual musical training.

BIBLE

In order to encourage the study of the Bible in preparatory schools, the College will accept, in the elective group, *one unit* under the following conditions:

(1) The applicant must come from a school giving a thorough course in either the Old Testament or the New Testament, covering a full academic year and occupying approximately one-fourth of the student's time for the year.

(2) The outline of the course, methods of instruction, and a report of the student's work must be submitted to the College Department of Bible for approval before an examination will be given.

(3) Credit will be given only after examination by the College authorities.

CURRICULUM ADMINISTRATION OF THE CURRICULUM

REGISTRATION

Students report first to the Treasurer's office, where all financial affairs are arranged; a card to this effect is furnished them for presentation to the Registrar's office, where they are registered and given their matriculation cards. They then meet with the appropriate committees for classification.

Students are required to report to the Registrar's office after the Christmas holidays before attending classes.

NOTE.—If, for any cause, a student fails to register in time to attend her first scheduled lecture at the beginning of a semester, she is charged a fee of \$5.00 for late registration. This rule, which is automatic as outlined above, is also applied to students returning late from vacations, unless their excuses are approved by the Dean.

CLASSIFICATION

Students are expected to make themselves thoroughly familiar with the plan of the curriculum and to arrange their courses so as to conform with its demands. By so doing they will greatly reduce the necessarily arduous work of the committees.

First year students present their cards to the Committee on Admission, and their courses are selected with the advice of this Committee. On or before April 15th, all students at that time in residence are required to file with the Registrar tentative statements of their courses for the next ensuing year. These programs are reviewed by the Committee on Electives and approved or revised. The cards, with the courses entered upon

them in due form, are obtained from the Committee in the fall, presented to the professors of the subjects, and, when they have been properly signed, returned to the Registrar's office.

After a course has been agreed upon by the student, with the advice of the Committee on Admission or the Committee on Electives, no change will be permitted, unless the question of the student's health be involved. All students must be definitely classified within two weeks after their arrival at the College.

ATTENDANCE ON LECTURES

Students are required to attend their lectures regularly and promptly. Absence from courses without due excuse results inevitably in the lowering of the student's standing. Professors are authorized to require students to make up work by taking written tests covering the periods lost through absence, whether the absence be excused or unexcused.

EXAMINATIONS

1. General examinations are held twice a year, in January and in May. Failure to attend any of these examinations, for any cause other than sickness, results in the dropping of the delinquent from the student body. In case of absence from examination because of sickness, the student will be given an opportunity to take the examination in question at the regular time set for re-examinations. (See below.)

2. Examinations for advanced standing upon work done in some other institution, or in the summer, must be taken at such time as may be arranged by the professors whose departments are concerned, provided that such examinations may not be given later than December 15th for the first semester's work. These examinations for advanced standing shall be more ex-

tended than ordinary examinations. In case of a subject of three hours' value, the examination shall be of at least five hours duration. In case of subjects of less values, examinations shall be of corresponding proportion. In case of failure on an examination for advanced standing, no re-examination is permitted. These examinations are given only at the College.

3. Any student desiring advanced standing credit by examination must pass such examination before being admitted to any advanced course in the given subject. The latest date at which any advanced standing examination may be given is in September of the year following the admission of the student.

4. Re-examinations are allowed in the case of conditional failure. These examinations for the first semester's work are given in the second week of the second semester, and for the second semester's work in the first week of the fall semester next following. Those failing in the re-examination will be required to repeat the course in question or forfeit the credit. In no case will more than one re-examination be allowed in the same subject.

In case of unconditional failure in a subject, no re-examination will be allowed.

5. If students find it necessary to apply for examinations at any other time than that announced in the regular schedule, or arranged for by the professors involved, such applicants must present the Treasurer's receipt for five dollars (\$5.00) for each examination desired, before the professors are authorized to give the same. Such examinations are known as "Special" examinations.

This regulation applies to re-examinations as well as to general and advanced examinations.

SEMESTER AND YEAR CREDITS

A semester credit is the value in hours of any course pursued through one semester. Thus, if a course scheduled for three hours a week for one semester be taken, the resulting credit towards the one hundred twenty-seven semester hours required for the degree is three semester hours. A year credit is the value in semester hours of a course pursued throughout the year. Thus, a course scheduled for three hours a week for the whole year will give a credit of six semester hours towards the degree.

SUMMER WORK

Students wishing to make advanced standing credits during the summer must communicate their plans to the College Committee on Advanced Standing and secure permission to do the summer work before entering upon it.

No credit will be given for work of an undergraduate nature unless a "merit" grade is received. A student may not receive credit by examination for a summer course in which she has received a grade lower than "merit."

The credit for each course taken at a Summer Session is determined by the Advanced Standing Committee, but the maximum credit which may be obtained in a six weeks' summer session is six semester hours.

LIMITATION OF HOURS

In order to prevent over-crowding of work, the following regulation of the student's hours has been put into operation:

1. The maximum number of lecture or recitation hours a week for Freshmen shall be sixteen, and the minimum fourteen.

2. The maximum number of lecture or recitation hours a week for advanced students shall be seventeen, and the minimum fourteen. Second and third year students may not take the maximum number of hours a week unless they shall have received merit grades in at least two-fifths of their work for the preceding session. Fourth year students may not take the maximum number of hours a week unless they shall have received merit grades in at least one-half of their work for the preceding session.

MERIT HOURS

Grades indicating the student's standing in any course are officially recorded as follows: "A," excellent attainment; "B," very good attainment; "C," good attainment; "D," passable attainment; "E," failure, with privilege of re-examination; "F," failure, without privilege of re-examination. The grades "A," "B," and "C," are known as "merit" grades. At least sixty of the one hundred twenty academic semester hours offered for the degree of Bachelor of Arts must be of the merit grade, the remaining hours of the course being made with a grade of at least "D."

Exact grades are not announced to students, their reports containing only the information: "Passed with Merit," "Passed," or "Failed."

NOTE.—For a detailed explanation of the "Merit" requirements for admission to recognition in each of the three classes, Sophomore, Junior, Senior, see notes preceding the official Register of Students, page 162.

REQUIRED RESIDENCE

The degree will not be conferred upon any student who has not done at least one full year's work in residence in this College immediately preceding graduation.

AUTOMATIC EXCLUSION

Any student whose work is notably unsatisfactory at the end of the first semester is considered to have excluded herself automatically from the College, unless by vote of the faculty she be put on probation for the remainder of the year. If at the end of the year she shall have failed to make credits to the extent of at least fifteen semester hours in courses counting towards a degree, she shall be considered to have excluded herself automatically from the College for the next ensuing year.

A student who fails for two successive years to meet the requirements for advancement to the next higher class, automatically excludes herself from the College, unless by vote of the faculty she be allowed to remain on probation.

NOTE.—In addition to the enforcement of the above laws, the College reserves the right to request the withdrawal of students who cannot remain in residence without danger to their own health or to the health of others, or whose presence is thought to lower the moral tone of the College. Students of this last class may be asked to withdraw, even though no specific charges be made against them.

THE BACHELOR OF ARTS DEGREE

REQUIREMENTS FOR THE DEGREE

Candidates for the B.A. degree must present one hundred twenty-seven semester hours of work of which seven semester hours must be made in physical education. Certain courses are required, as listed below, and others are elective. The program of work for each student must be approved by the Committee on Admission or the Committee on Electives. Since the design of the curriculum is to reserve elective courses for the more mature years of the student, the Committees will allow postponement of prescribed work only in such cases as may for special reasons demand this procedure.

1. Courses Required:

A. Specific requirements:

ENGLISH 101-102	6 semester hours

2. The elective hours are to be distributed as follows:

(a) Each student is required to complete a major and certain related hours, to be elected before the close of the second semester of the Sophomore year. All related hours and undesignated electives within the major must be approved by the major professor. Work in the major subject must be continued throughout the Junior and Senior years.

This requirement may be met in the following ways:

(1) A major of twenty-four semester hours (including the basic course) and twelve semester hours of related work; or

(2) A major of twenty-one semester hours (including the basic course) and fifteen hours of related work (twelve hours of the related work to be in one subject); or

(3) Two majors of twenty-four semester hours (including basic courses) not necessarily related.

Major courses are offered in the following subjects: English, French, German, Greek, Latin, Spanish, History, Biology, Chemistry, Physics, Mathematics, Psychology, Economics, English Bible.

The related subjects for departments in which majors are

given are definitely stated in the descriptions of majors following announcement of courses.

NOTE.—The following may not be elected to satisfy requirements for the major or related hours:

(1) Elementary courses in languages:

An elementary course in foreign language may be accepted as a basic course for a major or as related hours provided it is the third foreign language offered for the degree.

(2) Courses in Music, Art History and Spoken English.

(b) The remaining hours required to complete the one hundred twenty hours in academic work may be chosen at will, subject to the following restrictions:

(1) Not more than six hours may be taken under any one professor in any given semester.

(2) Students offering for entrance two languages in addition to Latin must continue one of these two languages in the Freshman year. Those offering for entrance Latin and one other language must continue that other language in the Freshman year.

(3) Students offering for entrance four units in Latin and no additional foreign language must take in the Freshman year the elementary course in French, German, Spanish or Greek. This elementary course will be counted toward the degree only on condition that it be followed in Greek by Course 205-206 and Course 201-202 or Course 203-204; in the other languages by Course 101-102.

(4) One year of a foreign language may be counted in making up the requirements for the degree only when that language is the fourth foreign language that the student has taken.

(5) Not more than eighteen hours in Music, Practical Art, and Spoken English combined may be counted towards the degree.

Any student in any department of the college giving evidence of inability to write correctly may be required to take additional work in English composition, even though English 101-102 may have been passed.

In order to receive the seven semester hours of credit required in physical education, the student must have completed four years of work in this department. Special arrangements will be made for those entering with advanced standing.

No student may receive the degree at any given Commencement unless she has obtained her full Senior standing by the 15th of the preceding April.

For the requirements as to "merit hours" and residence, see pages 48-49.

DESCRIPTION OF COURSES

Courses numbered below 100 cover subjects sometimes given in high school work. Credit for them in college is limited.

Courses numbered 101 to 199 are open primarily to Freshmen and Sophomores; Courses 201 to 299 to Sophomores and Juniors; Courses 301 to 399 to Juniors and Seniors, and Courses 401 to 499 are open to Seniors only. Courses open to lower classes are also open to upper classes unless stated to the contrary.

Courses with odd numbers are given the first semester and those with even numbers the second semester. Hyphenated Courses (e. g. 101-102) are year Courses. No credit is given until the entire Course is completed.

ART

MISS LEWIS

The purpose for which this department is conducted is to maintain a high standard of efficiency in the pictorial and decorative arts, and to give the student an intelligent appreciation of the works of the masters.

Around this principle are grouped the various branches of art education, giving in addition to technical training a knowledge of the historical development of art, theory of design and color, and practical work in the criticism and composition of pictures.

The studio practice is divided into four parts:

1. Drawing from cast and still life.
2. Drawing and painting from still life.

3. Drawing from life; painting from still life; outdoor painting.

4. Portrait painting, landscape painting.

A sketch class with costume model is open to all art students.

One hour a week.

A course in commercial art will be arranged for students wishing to specialize in that branch.

All students will be advanced according to ability.

Opportunity in the way of excellent examples and instruction is offered those desiring to study the various lines of decorative art.

Studio practice will be given credit of two hours a semester for students who have a minimum of six hours studio practice, provided they have completed or are taking Art 101 and 102.

Four hours will be the maximum credit allowed.

MUSIC

PROFESSOR DIECKMANN

MR. JOHNSON

MISS DOUGLAS

MRS. JOHNSON

The music department offers through its various courses in the theoretical and practical study of music, in connection with studies in the College, adequate facilities to fit students for a

professional life, and also to provide for the study of music as a part of general culture or as an accomplishment. The aim is to cultivate a more intelligent appreciation of the art, to understand its structure and its rich and varied literature, to know the history of its development, its place in the general history of culture, and to develop the power of interpretation.

Since no special line of study can be successful without a broad foundation, students are urged not to undertake the study of music exclusively until they have acquired the essential elements of a good general education.

With this end in view, the work of this department has been arranged, and courses are offered, so that regular College students, working for degree, may include music as a secondary study, with credit for it, and special students of music may avail themselves of the training offered in the literary courses of the College.

Degree Credit

Credit toward the degree will be allowed for courses in music under the following conditions:

1. At the beginning of the session the student must pass a satisfactory examination in Course 101-102 (see page 104), and demonstrate a sufficient technical ability to play correctly—with regard to position of hands, fingering, phrasing, rhythm, tempo, and dynamic effects—works of the grade of the simpler two-part inventions of Bach; C major and G major sonatas of Mozart; and some of the simpler Songs Without Words, of Mendelssohn.

NOTE.—This requirement when offered at entrance into College, will be accepted, upon examination only, as one unit in

the elective group. Only those who have had unusually good training are advised to try this examination.

2. Students who have met the above requirement may receive a credit for practical music to the extent of four hours a year for three years upon the satisfactory completion of the following work:

a. Two lessons weekly of half an hour each in piano or organ.

b. One hour and a half of practice daily for six days each week.

c. Theoretical work amounting to at least two credit hours in addition to the four hours of practical credit.

3. The total possible credit in practical music shall not exceed twelve hours, and the total possible credit for practical and theoretical music shall not exceed eighteen hours.

NOTE.—If credit courses in spoken English and practical art be likewise elected, not more than eighteen hours of music, spoken English and art combined will be allowed to count towards the degree.

Theoretical, Historical and Critical Courses

101-102. THEORY.—Rudiments, notation, intervals, scales, meter, chords, terms, ear-training.

Friday, 8:00—9:00.

No credit.

Required of all students of music.

basses the student is made acquainted with the correct use of triads and their inversions and the dominant seventh chord and its inversions. Simple harmonic analysis and keyboard harmony.

Drill is given in singing the musical formulae on which melodic progressions are largely based, and in singing major scales and their intervals according to their progressive difficulty. Drill is given in simple melodic dictation for one voice and in reading at sight simple one-part songs.

Two hours a week. To be arranged.

Credit: Two semester hours.

207-208. SIGHT-SINGING.—This is a continuation of the work in Course 107-108. In it the more difficult intervals and musical formulae of the minor scales are studied. Attention is also given to more advanced examples of melodic dictation. For sight-singing two-part and three-part songs are used.

Two hours a week. To be arranged.

Credit: Two semester hours.

NOTE.—The courses in sight-singing are open only to students of voice culture.

Practical Courses

It is the aim of the instruction to develop intelligent organists for church and concert work.

From the beginning, pedal technic, registration, and organ touch go hand-in-hand, together with pedal studies, leading to the modern writers and later to the great works of Bach.

Particular attention is given to hymn-playing, accompaniments for solo and choir, modulation, transposition.

Special stress is laid on the dignity of the church service, and a careful selection is made of organ literature suitable for divine worship.

GENERAL INFORMATION

SITUATION

The College is located in Decatur, a city of about 10,000 population and noted for educational interests and advantages. Since it is situated also only a mile from the city limits of Atlanta, Agnes Scott has many opportunities for participating in the educational, musical, artistic, social and religious life of the city. In this metropolitan area are located thirty-four institutions of learning, besides public schools, bringing over fifteen thousand students from all over the world, in addition to the local patronage.

The campus is on the divide between the Atlantic seaboard and the Gulf coast and has an elevation of 1,050 feet. The water is freestone, and the climate free from extremes of heat or cold.

BUILDINGS AND EQUIPMENT

The buildings of the College, thirty-six in number, including several cottages occupied by members of the faculty, are situated upon a well-shaded and spacious campus of rare natural beauty. With the exception of the White House, the Infirmary, and the Laundry, all the principal buildings are substantially constructed of brick, with trimmings of granite, limestone, or marble. Readers of this Bulletin will be especially interested in such of these buildings as form the working plant of the institution, and so the following brief description is given. Application may be made to the Registrar for any special information that may be desired concerning the halls of residence.

THE AGNES SCOTT HALL was the gift of the late Colonel George W. Scott, the revered and generous friend of the College

by whose munificence its existence was originally made possible. This building contains the offices of administration, besides various lecture-rooms, reception rooms, the art studio, and piano practice rooms. It is centrally situated and easily accessible from all parts of the campus. (See also Residence Halls, below.)

THE CARNEGIE LIBRARY BUILDING, the gift of Mr. Andrew Carnegie, is a two-story structure containing a lofty and spacious reading-room, librarian's office, special department study rooms, and stack space for twenty thousand volumes. The most approved card-index system of cataloguing and the service of a trained librarian render all books easily available to students. The reading-room is supplied with the leading literary, scientific and educational magazines, and with journals of music and art. In addition to the general library, mention should be made of the scientific library in Lowry Hall. The library is open every day except Sundays and holidays, from 8 a. m. to 6 p. m. and from 7 to 9:30 p. m.

THE LOWRY HALL affords excellent accommodation for the departments of biology, chemistry and physics. It is equipped throughout with all appliances necessary for the proper teaching of these subjects, including electricity, gas, and hot and cold water, both in the lecture-rooms and the various laboratories. On the left side of the main entrance is a bronze tablet with this inscription:

"This Science Hall is perpetually endowed by Robert J. and Emma C. Lowry in Memory of their Son, William Markham Lowry, Anno Domini, 1910."

The department of biology contains three laboratories, a lecture room, a professor's office, a vivarium, a photographic

room, a storage room, and a museum. The work of instruction and research commands the aid of suitable apparatus, such as microscopes, microtomes, ovens, baths, charts and illustrative collections.

The department of chemistry is well supplied with chemicals and chemical apparatus and the laboratories have every modern convenience that could be desired. Besides a large basement, there are five commodious laboratories, a lecture-room, a research laboratory, a professor's office, a library, three storage rooms, and two balance rooms.

In addition to these laboratories a geological museum is being equipped, and already a considerable number of fossils and mineralogical specimens are on hand.

The department of physics contains a large lecture-room, a professor's office and reference library, a dark-room, a large and well-equipped laboratory, and two store rooms.

PHILOSOPHY HALL, a two-story building, contains the lecture-rooms of the departments of philosophy, education and English.

BUCHER SCOTT GYMNASIUM-AUDITORIUM. This excellent building affords accommodations for some of the most useful College activities. It is one hundred seventy-five feet long and one hundred six feet wide. The main gymnasium room is ninety feet by seventy, and there are two auxiliary gymnasium rooms. The stage is eighty by forty feet and equipped with the modern four-color lights. The auditorium has a capacity of nearly two thousand people. The swimming pool room is eighty-two by forty-two feet, and the pool itself is sixty by twenty-five feet, the room and pool being tile lined. There are

five offices for physician and physical directors, four rest rooms, special quarters for day students, and five rooms for general student activities.

GYMNASIUM HALL is a three-story building formerly used for the physical education department, but now transformed into recitation rooms. It also houses certain student activities.

Residence Halls

There are four residence halls, in addition to five cottages, giving dormitory space for three hundred and fifty. All these buildings are comfortably equipped, lighted by electricity and heated by steam, and all contain both double and single rooms. Each floor of every hall is furnished with conveniently placed groups of bathrooms, with beds, and other necessary equipment, including a clothespress or wardrobe for each occupant. Abundant fire escapes, together with hose, fire buckets, and extinguishers on every floor, reduce to a minimum the danger of fire; but as an additional precaution the residence halls are under the constant and careful supervision of a watchman who is on duty all of every night.

THE AGNES SCOTT HALL contains, besides the administrative offices, lecture-rooms, etc., above referred to, dormitory space for about seventy-five students.

THE REBEKAH SCOTT HALL, a memorial to the late Mrs. Rebekah Scott, wife of Colonel George W. Scott, contains, besides two dormitory floors, the College Chapel, the halls of the two debating societies, a large dining-room, a commodious lobby, and various reception rooms. A colonnade connects this building with the AGNES SCOTT HALL and thus renders available for the latter building the dining-room of the former.

THE JENNIE D. INMAN HALL, a gift to the College of the late Samuel Martin Inman (for many years the honored Chairman of the Board of Trustees), as a memorial to his deceased wife, has three floors devoted entirely to bedrooms. The wide veranda of the building is extended to meet that of the WHITE HOUSE, in which is located the dining-room for both these halls.

THE WHITE HOUSE affords accommodation for a number of the ladies of the faculty, and has besides limited space for the occupation of students. The entire lower floor of this building is occupied by the dining-room, kitchen, pantries, etc.

FIVE COTTAGES situated on the campus offer accommodation for about fifty students. These cottages are comfortably furnished and supplied with all modern conveniences.

Auxiliary Buildings

THE ANNA YOUNG ALUMNAE HOUSE was erected through the joint efforts of the Trustees and the Alumnae in memory of Miss Young, who was for twenty-one years a beloved teacher in the College. It is a beautiful brick cottage, well equipped with a tea room for the use of the College community and with facilities for taking care of guests. It is especially a home for returning Alumnae and is under the general management of the Alumnae Association.

THE ALUMNAE INFIRMARY, a well-built, two-story house, situated south of Lowry Hall was added to the College plant through the efforts of the Alumnae. The building has been arranged so that it is admirably adapted to its purpose.

In recognition of the generosity and affectionate interest of

the Alumnae in their Alma Mater, the Trustees have named the building The Alumnae Infirmary.

ELECTRIC AND STEAM PLANT.—Electric light and steam heat are supplied to all the College buildings from a modern and well-equipped plant situated on the south border of the campus.

STEAM LAUNDRY.—A steam laundry, adjoining the electric and steam plant, is operated for the benefit of the College community.

THE ALUMNAE SCHOLARSHIP AID.—The Alumnae have caught the spirit of helpfulness which characterizes their Alma Mater and have coöperated heartily to help others secure the education which they have enjoyed. They have given more than \$1,000 to establish the SHEPPARD SCHOLARSHIP mentioned

The charges are made for the college year as a unit, and are not intended to be divided between the semesters. The payment permitted on January 1st is to cover the balance due for the session, and it is not the second semester charge and therefore due later. If the College is notified by January 1st that a student wishes to complete the work of the first semester and to withdraw before the beginning of the second term, the President has discretion to allow this without the January payment. In the case of all students wishing to have places reserved for the remainder of the session, it is necessary that payment be made or satisfactory terms arranged with the Treasurer as above provided. All correspondence relating to financial affairs should be directed to the Treasurer.

All remittances should be made payable to Agnes Scott College. Due to the clearing house rules, our banks charge exchange on local checks. In view of this fact we request that

patrons kindly make reittances in either New York or Atlanta exchange, or Postal Money Order. However, if a local check is preferable please add ($\frac{1}{4}$) of 1 per cent. for exchange.

Notes

No student who does not live in Atlanta or Decatur will be permitted to make living arrangements outside of the college with any one except a close relative unless she has previously secured the written consent of the Dean.

All who have engaged rooms prior to the opening of the session will be charged from the beginning of the session or semester.

When a patron finds it necessary to request deferred payment of bills when due, special arrangements must be made *in advance* of arrival of the student with the Treasurer, since no student will be allowed to enter college where the financial arrangements have not been perfected. In all such cases, the Board of Trustees has directed that notes be taken bearing six per cent interest from *date payment* was due.

This clause is not meant to indicate that the College makes a practice of granting deferred payments, and the same are *not* granted except for good reasons, which are satisfactory to the Finance Committee, arranged through the Treasurer, at least *ten days prior* to the date payment is due. Deferred payments will *not* be granted unless arranged in this manner, and further, where such terms are arranged it is *obligatory* that such notes will be met *promptly* on due date.

No student will be allowed to attend classes at the *beginning of any semester* where her account is *unpaid*.

The Laboratory fee must be paid before entering classes in chemistry, biology, physics or psychology for the entire session, and will not be refunded for any cause. In addition a deposit of Five (\$5.00) Dollars is required of chemistry students. This will be refunded in May except so much as is necessary to pay for breakage of returnable apparatus. This refund, if not claimed by the student, at the Treasurer's office, prior to Commencement Day is automatically forfeited.

The College employs a resident physician and a resident trained nurse. It also maintains an infirmary with the conveniences of a modern hospital. The \$10.00 medical fee assists in covering the above expenses.

No student will be received for less than a full term, or the portion of the term remaining after entrance. The professors are engaged and all arrangements made for the scholastic year, and the College obligates itself to furnish the advantages thus provided *for the session*. The entering of a student is a corresponding obligation on the part of the patron to continue the student *to the end of the session*. In the event of withdrawal *on account of sickness of the student*, the amount paid for board and laundry in advance of date of leaving will be refunded, *but not amount paid for tuition*.

Refunds are computed on the session charges during the first semester and on the January payment for the second semester.

NO DEDUCTION FOR ANY CAUSE WILL BE ALLOWED STUDENTS AFTER MARCH 15TH.

No claim for a refund for *any* cause will be considered unless it is filed with the Treasurer on or before the 1st of May in the year such refund is asked.

Students who register for any "Special" must continue it for the semester. The only exceptions to this rule will be the discontinuance upon the recommendation of the College Physician or the faculty committee, and then the only grounds for non-payment of the account or a refund, if paid, will be the health of the student or such a heavy schedule of *required* work that the "Special" cannot be continued without injury to the student.

When permission has been secured from either of the above sources it is *obligatory* upon *the student* to notify the Treasurer within *three* days after permission has been granted. The failure to do this forfeits any claim for a refund. In the event a "Special" has been continued for as long a period as six weeks there will be no refund for *any* cause.

Correspondence concerning the general management of the College, or concerning the welfare or interest of students should be addressed to the President.

Correspondence concerning the life in the dormitories, or health, or discipline of students should be addressed to the Dean.

It is recommended that each student be provided with \$20.00 upon entrance to college in order that she may be able to purchase the necessary books and stationery. These are sold by the College at city prices *for cash only*.

It is hoped that parents will make only moderate allowance to their daughters for spending money. When money is deposited with the Treasurer for students, it is paid out on their checks, and no other account is kept by the College except cancelled checks.

The College will not advance money to students.

In cases of protracted sickness or contagious diseases, parents must provide a nurse at their own expense.

Patrons must pay for medicines and for consultations.

A fee of \$5.00 is charged for B.A. diploma and \$2.00 for music or art certificate.

All dues to the College must be paid before either diploma or certificate will be awarded.

The College reserves the right to request the withdrawal of a student at *any time* where the financial affairs have not been satisfactorily arranged. In the event of such withdrawal there will be *no refund* for any money previously paid.

The College exercises every precaution to protect property of students, but will not be responsible for losses of any kind.

For the accommodation of students and teachers the College receives packages for them, and the utmost care is taken to have these packages properly delivered to the owners, but the College will not be responsible for any losses that may occur.

Discounts

When two or more sisters enter as boarding students a discount of \$20.75 is allowed from the September payment, and \$12.50 from the January payment, for each sister.

This discount is granted only upon full *cash* payment on due dates.

Students holding College scholarships will not be given any further discounts.

In no case will two discounts be given the same student.

A discount of \$100.00 on tuition will be made to ministers *regularly engaged* in their calling who send their daughters as boarding students. This is credited \$50.00 on each semester. All other charges will be at regular rates.

To ministers *regularly engaged* in their calling, who send their daughters as day students, a discount of \$28.50 will be allowed on tuition. This is deductible \$16.00 in September and \$12.50 in January. All other charges at regular rates.

NO DISCOUNT WILL BE ALLOWED BOARDING STUDENTS FOR ABSENCE FROM ANY CAUSE EXCEPT SICKNESS OF THE STUDENT, AND THAT ONLY WHEN THE ABSENCE IS FOR AS LONG AS SIX WEEKS.

This refers to a student who leaves on recommendation of the Resident Physician.

NO DISCOUNT TO DAY STUDENTS.

No reduction will be made for holidays.

No refund will be made where a student fails to return after the Christmas holidays.

The boarding department will be closed during the Christmas holidays. For the accommodation of those who remain, one dormitory will be kept open, but no provision is made by the College for meals.

Furniture

The College supplies each room with bedstead, bureau, wardrobe, washstand, chairs, mattress, pillows, and crockery. Each

student should bring with her sheets, blankets, counterpanes, pillow-cases (35x22), towels, napkins, napkin-ring, teaspoon, and any article, as rugs, curtains, etc., of use or ornament desired for her room. The bedclothes should be the size used for single or three-quarter beds.

All articles, including trunks, must be plainly and durably marked with the name of the owner. Failure to comply with this requirement causes great inconvenience and sometimes loss.

Arrivals at Night

Students arriving in Atlanta in time for the *official* opening of College in September are met, on request, by a representative of the College, without charge.

At *other* times a chaperon's fee will be charged for meeting trains. If two or more students are met the charge is to be divided equally among them.

Students, when met under the above rule, are expected to pay to the *Dean* the fee on the day *following* their arrival, since no account will be opened on the Treasurer's books for this fee.

Guests

The College regrets that it has been found necessary to limit the free hospitality it has heretofore extended. Since every space in the dormitories is occupied by faculty and students, guests cannot be entertained without serious inconvenience except from Saturday to Monday. At such times, after consultation with the Dean, vacancies caused by the temporary absence of students may be utilized for guests at a charge of one dollar and fifty cents a day. Whether guests are being entertained for

the week-end or for a single meal, permission must be obtained from the Dean and meal tickets procured at the business office.

The above regulations do not apply to the Alumnae. When they desire to visit the College they are asked to communicate with the Dean stating the date and the length of the proposed visit.

All guests are expected to conform to the dormitory regulations.

STUDENT ACTIVITIES

The student organizations and publications occupy a most important place in the community life of the College, and are commended as valuable educational aids in the work of training young women for the highest efficiency. It will be evident that these enterprises entail a certain amount of financial expenditure. In order to reduce this expense to a minimum, and at the same time to insure the continued life and activity of the various necessary developments of the student body, a general coöperative plan has been devised by the students.

For the support of student activities such as the Student Government Association, the Debating Council, the Athletic Association, May Day Committee, and the various student publications, each student pays fifteen dollars (\$15.00) which is payable in two installments—ten dollars at the beginning of the first semester and five dollars at the beginning of the second semester. This system relieves the student of the annoyance of frequent assessments.

It is expected that the first payment will be made the *time of entrance*. The College does not handle the student budget so please make check payable to the Student Treasurer, Agnes Scott College.

NOTE.—The organizations here named are those involving the entire student body. The various other organizations, literary, dramatic, honorary, and social, are, of course, limited in membership and so are not covered by the \$15.00 of the budget system.

Organizations

THE STUDENT GOVERNMENT ASSOCIATION.—This organization, based upon a charter granted by the faculty, has for its purpose the ordering and control of the dormitory life and of most other matters not strictly academic. Its membership includes all the students. The most gratifying results have continually followed the increase of opportunity and of responsibility thus given to the students, especially in the development of self-restraint, consideration for the majority, and the true cooperative spirit.

YOUNG WOMEN'S CHRISTIAN ASSOCIATION.—The objects of this Association are:

To develop the spiritual life of the students.

To coöperate with other student associations in the general work of the Young Womens' Christian Association.

To do all possible to advance the Kingdom of God.

The various departments of the Association work are well organized and render efficient service. The Association has the sympathetic interest and support of the faculty, while the stu-

dent body, with few exceptions, are members. The leaders among the students are also the leaders in this work, and thus the organization wields a large influence for good.

ATHLETIC ASSOCIATION.—Athletic sports, not including the regular gymnastic classes, are managed by the Athletic Association. There are three sports seasons. During the Fall season hockey and swimming are major sports, and tennis a minor sport; during the winter season, basket ball and water polo are major sports and volley ball a minor; during the spring season, baseball, track and swimming are major sports and tennis a minor.

An athletic field affords excellent opportunity for hockey, baseball and track, while six tennis courts are in almost constant use the whole year.

The Athletic Association also manages a camp at Stone Mountain, where groups may go for the week-ends.

PUBLIC LECTURE ASSOCIATION.—An organization of students and faculty has been formed for the purpose of inviting noted speakers, from time to time, to address the College community. These lectures are likewise open to the public upon the payment of a small fee.

Publications

The students issue the following publications:

THE AURORA.—A quarterly magazine devoted to the development of literary effort among the students.

THE SILHOUETTE.—The annual, published by the student body. It is intended to give, in humorous and artistic vein, a record of the student life for the current year.

THE AGONISTIC.—A weekly newspaper published by the student body. It has as its object the promotion of loyalty to the College and the dissemination of local news.

THE Y. W. C. A. HANDBOOK.—A manual of information issued annually by the Association.

RELIGIOUS LIFE

Every effort is made to promote earnest and pronounced religious life in the College. Students are requested to select the church they desire to make their church home as soon as practical after arrival. Ordinarily this must be the church of their parents. They are expected to attend this church on Sunday morning. Attendance on daily morning prayers is required.

The regular Sunday evening service and the mission study classes, conducted by the Young Women's Christian Association, are largely attended, as is also the tri-weekly vesper service in the chapel under the leadership of members of the faculty.

APPOINTMENT COMMITTEE

The faculty has appointed a Committee with a view to assisting Agnes Scott students in securing positions. All graduates and other students of the College who desire to teach or do other work are invited to apply for registration blanks, fill them out and file them with this committee. Address the Registrar.

ALUMNAE ASSOCIATION

During the Commencement of 1895 the Agnes Scott Alumnae Association was organized. The purpose of the Association is to promote the welfare of the College and its alumnae by in-

creasing the interest of its members in the College and in each other.

The work of the general association is conducted largely through the Alumnæ Council and the standing committees, the annual meeting being held in Atlanta during Commencement week. Two alumnæ represent the Association on the Board of Trustees.

The Association has established the Agnes Scott Aid League, which will lend money to students who need to borrow in order to complete their College course. Not more than \$150.00 will be loaned to any student in one year. These loans do not bear interest and are to be repaid whenever the student shall be in a position to do so.

Applications for loans should be made to the President of the Association through the President of the College.

The officers of the Association are as follows:

President—Mrs. Brainerd R. Adams, '23, 1445 4th Ave., Columbus, Ga.

First Vice-President—Mrs. Frank K. Sims, '20, Thornton Ave., Dalton, Ga.

Second Vice-President—Mrs. W. W. Anderson, '11, 63 Avery Drive, Atlanta, Ga.

Secretary—Mrs. J. Fraser Durrett, '24, 1109 West Peachtree, N. E., Atlanta, Ga.

Treasurer—Mrs. R. M. McFarland, Jr., '25, 1935 Ponce de Leon Ave., N. E., Atlanta, Ga.

General Secretary—Miss Polly Stone, '24, Alumnae House, Agnes Scott College.
